Camp Conejo Creek is a new and exciting camp program we are starting at Temple Etz Chaim for children 5-years-old through eighth grade. You can select from either 5 days a week or 3 days week. The summer camp program is filled with activities and programming designed around campers interests - programming like creative arts, theater performance, culinary arts, sports and recreation, science, and theme days are provided for your children to explore their interests this summer. We are also planning local field trips on Tuesdays and Thursdays to places like Sports Academy, The Stadium, Boulderdash, and swimming, and we will be on campus participating in enriching activities and workshops on Monday, Wednesday and Friday. Children are grouped according to interest and then by grade.

Our Camp Conejo Creek program is about providing a summer day camp program that reinforces our core values of celebrating childhood and Judaism in a safe and caring environment. We are committed to engaging your children in activities with a summer full of experiences. Our well-trained and expert staff encourages every child to explore while creating fun and exciting memories, and fully prepared to help each and every camper make priceless summer memories.

Select four activities from the ones below when registering for camp.

Summer Activities and Workshops

Mixed Media - This workshop will challenge campers to use their imagination and translate creative ideas and images into visual art utilizing mediums like ceramics, woodworking, and canvas while incorporating paint, ink, watercolors, and collage.

Fun Fitness - Get ready to have some fun through fitness with recreational sports and activities like gaga, frisbee golf, croquet, lawn games, tug-of-war, soccer, along with time dedicated to sports skills and drills. Through teamwork, campers gain lifelong skills as they build self-esteem and leadership ability through fitness.

Performing Arts - This musical theatre arts program is for the aspiring performer interested in learning about and participating in musical theatre. Instruction is focused on performance artistry, musicianship, dance, and actor training.

Culinary Cuisine - Campers will prepare delicious and tasty kosher creations right here in TEC's dairy kitchen. Kids love cooking and the best thing part of this activity is teaching them about healthy cooking and eating. While your campers are learning all about nutrition, the culinary arts activity includes reading, math, science and health. And, there is challah every Friday!

Super Science - From crystals to chemical reactions to lava lamps and catapults, the science activities in this workshop engage and educate. Campers in this workshop will discover and explore topics ranging from chemistry and bugs to science and seeds.

Abracadabra Magical Arts - Campers will learn, perform and demonstrate magic tricks and illusions. Learn the basics of coin tricks, card tricks, levitating illusions and other magician techniques. Have fun and amaze your family and friends.
